

# How to Burn Your Own CD

---

- 1) Locate the downloaded file(s) *(most likely in the Downloads folder)*
- 2) If you downloaded the whole album, double click the .zip file to unzip.
- 3) Open the songs in your preferred audio playback program.

Then follow the directions below:

## How to Create a Playlist in iTunes

1. At the top of the iTunes window, click 'File'.
2. Click 'New Playlist'.
3. Type the name of the playlist.
4. Drag each song you want onto the playlist icon.

## How to Burn a CD in iTunes

1. Locate the playlist you have just created.
2. Right-click the playlist and click "Burn Playlist to Disc"
3. Insert a blank CD into your CD drive.
4. Click 'Burn'.

## How to Burn a CD in Windows Media Player

1. In the right pane of Windows Media Player, click the 'Burn' tab.
2. Drag each song you want from your music library to the Burn pane on the right.
3. Insert a blank CD into your CD drive.
4. Click the 'Start Burn' button at the top of the Burn pane.
